

GOLF DAYS AT OAKMERE .

We are confident our courses are playing as well as, or better, than other courses in the area and we pride ourselves on offering both societies and individuals a warm welcome. Both courses are free draining championship length heathland courses designed by Frank Peninck renowned international golf course architect. Never use temporary greens and rarely ever close due to rain.

THE ADMIRALS COURSE

Our 18 hole course, named the Admirals course after Admiral Sherbrooke V.C., consists of 6571 yds (white tees) of rolling, undulating terrain, with a par of 73 . A pleasant relaxing walk with ponds and the Dover Beck meandering through the Course on several holes.

THE COMMANDERS COURSE

Our 9 hole course, named the Commanders course, named after Commander Mortensen, is a championship length course of 6376 yds with a par of 72 which has two sets of tees when you play around twice. Much care and time has been invested in landscaping, with trees and hedgerows to establish an interesting and challenging layout.

THE 19TH HOLE

By retaining the natural character of the original farm buildings, which house the clubhouse facilities, a truly special off course environment has been created. Our restaurant offers everything from tea and toast to bar snacks and an extensive dinner menu. It caters for all occasions from the club disco to a wedding banquet, seating up to 150 people.

During your visit you may wish to take advantage of the video and custom fitting centre of 'The Golf Clinic' which is based on the driving range. The Golf Clinic uses the latest computer technology for Club fitting and Gasp swing analysis software for swing instruction.

For full details of the service provided by the Golf Clinic click on to their website and if you would like to reserve the custom fitting and video bay + during your visit please call the Pro shop for details.
